In doing so, don't worry: You won't overwrite your photos, apps, or music preferences, and you won't be forced to back up to iTunes if you currently back up via iCloud.

Normally, if you have media that you own and want to play on your iOS device, the pathway to doing so is pretty simple: Rip and encode into an iOS-playable format using, then drag and drop the file into iTunes and sync with your Mac.. • Connect your iPhone or iPad to your Mac via its charging cable • Once connected, open iTunes.. • Select Get Info • Rename your movie file under the Details screen • You can also sort your movie by going to Options > Media Kind.. • Drag your movie file from the Finder to your iTunes library • Type the name of your movie file in the search bar to find it.
